micro:bit Basics

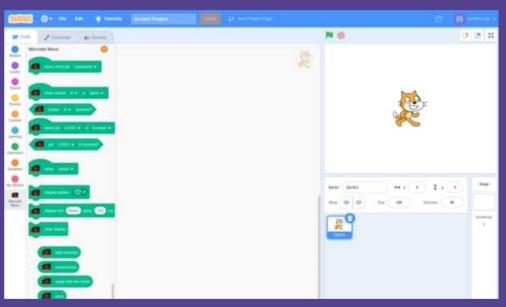

Meet the micro:bit

Programming

Makecode

Scratch (with micro:bit extension)

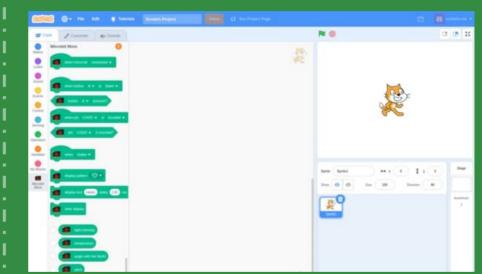

Makecode

- Program runs on micro:bit
- Can work without computer (...after programming)
- Access full capabilities of micro:bit (...including any external components)

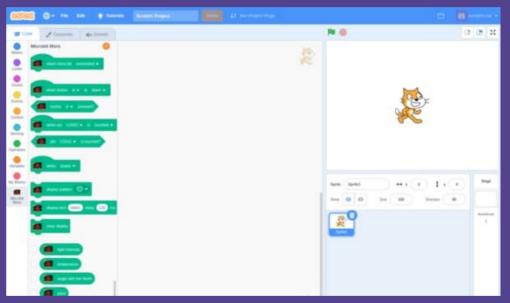

Scratch (with extension)

- Program runs on computer, and sends commands to micro:bit
- Cannot work without computer!
- Can integrate with Scratch program (eg. Games, animation, TM2Scratch)
- Access most capabilities of micro:bit, but only a few external components

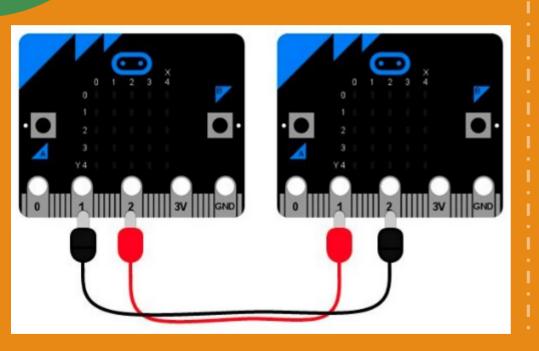

Which to Use?

BOTH!

Using Both

- Best of both worlds
- Scratch
 - Interface with Scratch programs
- Makecode
 - Interface with external components
- Wire connection
 - Communication between two micro:bits
